

F P Herting & Son Plc

Environmental Policy

Trading for over 60 years, Hertings operates from our purpose-built facility in Southall, Middlesex, delivering Fixings and Architectural Ironmongery to all of our customers, from National and Regional House Builders to sub-contractors, using our own fleet of vehicles.

We aim to make a positive impact on the environment every day, ensuring environmental management is a key priority.

As a responsible Company F P Herting & Son Plc shall:

- Comply with the applicable legal requirements and other requirements to which the Company subscribes which relate to its environmental aspects.
- Adopt, Reduce, Reuse, Recycle within our operations.
- Reduce the impact of our vehicle fleet on the environment with the adoption of EV's. and Vehicle Routing Optimisation software
- Partner with responsible suppliers to source ethically and sustainability.
- Educate and support our people in being the best they can be.
- Introduce a waste management system to reduce what is sent to landfill.
- Look at our energy consumption and explore solar options and continue to change to LED lighting.

Supply chain sustainability school

Current Gold member

This policy will be reviewed annually, when circumstances require or if there is a change to company processes.
